Fire Safety Management

Suitability: This course is suitable for anyone who is responsible for implementing and maintaining fire safety measures at the workplace. Besides providing clear information on how a fire could be extinguished, it also provides awareness about fire hazards and how these could be controlled in order to improve fire safety at the workplace

Validity: 5 years

Course Assessment: At the end of the Fire Safety Management course, participants are assessed by a multiple choice assessment sheet to assess understanding of main topics and any weaknesses are addressed to by the tutor

We are accredited by the Safety Training Awards (STA) of UK, to conduct Fire Safety Management Courses. Our Fire Safety Management certificates are worldwide recognized.

The Fire Safety Management course is made up of 5 sections, which are:

Section 1: Introduction to Fire Safety

Section 2: Fire Spread Methods

Section 3: Fire Prevention & Control Methods

Section 4: Stopping Fire from Occurring

Section 5: Saving Lives and Minimizing Damage

Section 6: Extinguishing a Fire

Section 6: Fire Safety Procedures

Main Course Topics:

Introduction to Fire Safety

1. Costs to Businesses and Individuals
