

ST BERNARD'S
SAFETY TRAINING CENTRE

Fire Safety Management

Suitability: This course is suitable for anyone who is tasked with devising, implementing and updating fire safety in a building. It also provides clear instructions of what type of fire safety management must be continually ensured in place in order to ensure that a high level of fire safety is maintained at all times

Validity: 3 years

Course Duration: 4 hours

Course Assessment: At the end of the course, participants are assessed by case study scenario in order for the tutor to assess understanding of main topics and address any weaknesses in understanding

Certification: Upon successfully completing the Fire Safety Management course, each participant will be issued with a certificate of competence in the subject

St Bernard's Safety Training Centre is qualified by the Safety Training Awards (STA) of UK, to conduct Fire Safety courses.
